

PROFESSIONAL SUMMARY

Results-driven Software Developer with a strong foundation in PHP and Laravel for building robust, scalable backend systems. Proven ability to solve complex problems and deliver impactful solutions, from employee management tools to e-commerce platforms. Combines deep backend expertise with full-stack proficiency to effectively contribute to all stages of the development lifecycle.

EDUCATION

Addis Ababa University.

Bachelor of Science in Computer Science, 2025
Relevant Coursework: Data Structures, Web Development, Machine Learning, Database Management.

SKILLS

Backend/PHP Expertise:

- PHP
- Laravel
- MySQL

Frontend

- Javascript
- HTML
- CSS
- React
- Tailwind CSS

Other Backend & Tools

- Node.js, Express, PostgreSQL, Python, Git.

AI/ML(Additional Skills)

- Langchain, LlamaIndex, OpenAI APIs, RAG, Fine-tuning.

CERTIFICATIONS

- Specialization in Machine Learning (Coursera, Stanford): Supervised, Unsupervised, Recommender Systems, and Reinforcement Learning.
- AICE - AI Career Essentials by ALX.
- Full Stack Web Application Development by Evangadi Networks.
- Data Analysis Fundamentals by Udacity.
- Multi AI Agent Systems — crewAI

PROFESSIONAL EXPERIENCE

Software Developer

TechHive Technology Solutions — Aug 2025 -Present

- Led the development of backend features for an employee management system using Laravel, designing efficient database schemas and RESTful APIs. Solved critical workflow problems by integrating a secure ID card generation module. Collaborated on a React frontend to ensure a seamless user experience.

Odoo Application Developer Intern

Purpose Black Ethiopia — Jun 2024 - Sep 2024

- Gained hands-on experience with a PHP-based ecosystem (Odoo ERP), customizing and optimizing modules to meet specific client requirements. This involved problem-solving to adapt the system for unique business processes and improve performance.

Full Stack Developer

Evangadi Network Team — May 2024 - Sep 2024

- Developed an Electronics Repair platform with integrated RIA payments. Built a user-friendly frontend (React, Vite, Tailwind CSS) and a robust backend (Node.js, Express, PostgreSQL).

PROJECTS

- Exam Preparation Platform (PHP/MySQL):- Led the full-stack development of a platform to help users prepare for exams. Architected the backend using PHP and MySQL to handle user data, quizzes, and study materials, ensuring data integrity and performance.
- Enterprise Employee Management System:-Architected and built a Laravel backend with efficient database design and secure API endpoints. Solved key operational problems through automated ID card generation .
- LinkTech Wireless:-Developed an Electronics Repair Service platform with RIA payments.
Tech: React, Vite, Tailwind CSS, PostgreSQL, Node.js, Express
- Q and A System:-Built an AI-powered information retrieval system with LlamaIndex and Google Gemini.
- A chatbot that generates essays and poems from user topics, powered by Langchain and LLAMA2 for high-quality content creation with an easy-to-use interface.
